

# Payment System Product Codes

April 1, 2020

Version 4.0

## Document Summary

This document describes the Payment System Product Codes recommended for use by electronic payment systems within the petroleum/convenience industry.

## **Copyright Statement**

## Introduction

From pay-at-the pump, to paperless transactions with vendors, to tracking consumer sales patterns through point-of-sale data, to future undetermined uses, technology promises greater business efficiencies for the convenience store and petroleum marketing industries.

Standards greatly facilitate the interoperability of technology applications. The Conexus Retail Financial Transactions Committee, originally part of the NACS Technology Standards Project and then the Petroleum Convenience Alliance for Technology Standards, generated this set of recommended product codes.

Subsequently, these Payment Product Codes were adopted as part of the X9 standard for terminal-to-host messaging (first as TG-23 and later as X9.104 Part 2). They have been maintained sequentially by NACS, PCATS, and now Conexus; Conexus is the official Registration Authority, approved by ASC X9, Inc., to maintain these codes as part of X9.104.

These product code definitions are for use in electronic payment systems formats. These codes define petroleum and merchandise products and services by assigning them a specific three-digit number. Host payment systems, along with vendors, are encouraged to adapt their systems to utilize these codes so that standard product definitions are maximized for the benefit of all users.

Conexus maintains this set of product codes and updates them as necessary. In order to facilitate this maintenance and still provide maximum flexibility for individual vendors and networks to use these codes, two sets of undefined code categories exist. The first is for the exclusive use of Conexus in making future changes. The second is for the proprietary use of the vendor community to add codes outside the adopted list. Notwithstanding such private use opportunities, Conexus encourages vendors to submit new generic product codes so that the list may reflect the most up-to-date codes in use throughout the industry and continue to achieve the goal of standard product definitions.

## Deprecation

Codes that were deprecated in Version 3.5 have been reused or marked for Future Use of Conexus. This results in a breaking change. In Version 4.0 there are additional codes marked to be deprecated. Deprecated code values may be reused by Conexus in future versions of this document. Therefore, vendors and host networks should plan to modify

systems to use alternate codes. Direct any feedback on deprecated codes that would require reconsideration to [info@conexus.org](mailto:info@conexus.org).

## **Dyed Fuels**

The term "dyed fuel" refers to the practice, in many markets, of adding dye to non-taxable fuel. The dye is added so that a vehicle tank can be verified that the driver has purchased the correct fuel for the purpose intended. We do not use the term dyed within the Payment System Product codes because use of dye is not a universal practice. If a dyed fuel product is needed the non-taxable fuel product code for that product should be used.

## **Diesel When Taxable and Non-Taxable Fuels Are Sold From the Same Dispenser**

There are over the road implementations where a dispenser may dispense both taxable and non-taxable fuels in a single transaction. For example, a vehicle which has a diesel-powered refrigeration unit would buy taxable fuel for use in the main fuel tank (to drive the vehicle) and non-taxable fuel to cool the refrigeration unit. The site system will be responsible to indicate a taxable fuel line item separately from the non-taxable fuel line item.

## **Auto Diesel and Commercial Diesel**

The same fuel is used for both auto and commercial diesel applications. For implementations that need to differentiate the location from which and/or how the fuel is delivered, it is recommended that the service code be utilized. A new service code for "high-speed" is being introduced to address this need. (Note: Auto diesel may use either full or self).

## **Cannabinoids**

Cannabinoids have been legalized in some markets where Conexus Payment System Products Codes are in use. As a result, product codes for Cannabinoids have been added (700-719). However, it is strongly recommended that the allotted product codes only be used by merchants selling in markets where Cannabinoids are legal in order to avoid any violations of applicable laws.

## Versioning

This version reuses some previously deprecated product codes and is considered a major release.

## Release Notes for Version 4.0

### Fuel Changes:

Redefine previously deprecated codes to: Reserved for Conexus Future Use

Remove reference to Unleaded (since all gasolines are unleaded), the goal is to reduce the length of the names to improve usage in mobile applications

Change Plus to Mid/Plus

Change Super to Premium/Super

Deprecate: 011-015, 041 Ethanol blends at 5.7 & 7.7%

Update: 071-075 to be marked reserve for Authorization Only

### Clarify:

- 004 Mid/Plus 2
- 005 Premium/Super 2
- 311 Biodiesel Blend 2% Off-Road (Non-Taxable)
- 312 Biodiesel Blend 5% Off-Road (Non-Taxable)
- 313 Biodiesel Blend 10% Off-Road (Non-Taxable)
- 314 Biodiesel Blend 11% Off-Road (Non-Taxable)
- 315 Biodiesel Blend 15% Off-Road (Non-Taxable)
- 316 Biodiesel Blend 20% Off-Road (Non-Taxable)
- 317 Diesel #1 Off-Road (Non-Taxable)
- 318 Diesel #2 Off-Road (Non-Taxable)
- 319 Diesel #1 Premium Off-Road (Non-Taxable)
- 320 Diesel #2 Premium Off-Road (Non-Taxable)
- 328 Off-Road Mid/Plus 2 (Non-Taxable)
- 329 Off-Road Premium/Super 2 (Non-Taxable)

### Add the following new fuels:

- 016 Green Gasoline Regular (Plant based not petroleum based)
- 017 Green Gasoline Mid/Plus (Plant based not petroleum based)
- 018 Green Gasoline Premium/Super (Plant based not petroleum based)
- 060 Renewable Diesel ( $\geq$ R95) (meets ASTM D975 in US / EN 590 in Europe)
- 037 Mid/Plus 2 (10% Blend)
- 038 Premium/Super 2 (10% Blend)

156 Biojet (Diesel)  
 156 Aviation Biofuel (Gasoline)  
 231 Marine Diesel

Non-Fuel Additions:

658 EV Battery Exchange  
 659 Toll Payments  
 700-719 Cannabinoid  
     700 Cannabidiol (CBD)  
     701-717 Undefined Cannabinoid - Reserved for Conexus Future Use  
     718-719 Undefined Cannabinoid - Reserved for Proprietary Use  
 915-919 Local Discounts  
 920-924 POS/Loyalty Reserved Discounts  
 971 Charity  
 972 Gratuity
